+ ABOUT ME

Full-stack developer with a diverse background in engineering and software development. Experienced in building scalable systems and solving complex problems using modern technologies. Passionate about cybersecurity, clean code, and delivering user-focused solutions.

+ EDUCATION

- FATEC-SP - São Paulo State Technology College
2026
BACHELOR IN INTERNET SYSTEMS
 - Degree in Internet Systems, with emphasis on full-stack web engineering and systems security
 - Applied projects using Spring, Python (Django/FastAPI), PHP, React, Angular, Vue.js, Node.js, and .NET frameworks
 - Academic foundation covering databases, APIs, cloud concepts (AWS & Linux), CI/CD pipelines, and agile development practices
- UNESP São Paulo State University
2023
MECHANICAL ENGINEERING (INCOMPLETE)
 - Built a solid foundation in mechanics, thermodynamics, materials, CAD/CAE software, and applied mathematics.
 - Transitioned to programming with a strong analytical mindset.

+ SKILLS

VueJs, Nuxt, React, React Native, Angular, NodeJs, Express

PostgreSQL, SQL Server, Docker, Prisma, REST APIS

UX/UI, Adobe Photoshop, Illustrator, Premiere

Cybersecurity

Cloud & CI/CD

+ WORK EXPERIENCE

- Sys Evolution Licitações - LicitaSys
Remote
JUN 2024 - PRESENT
FULL-STACK DEVELOPER
 - Development of scalable web applications for public tenders, using Vue.js, Node.js, and PostgreSQL
 - Contributed to the development of a multi-tenant platform and integrations with internal systems
 - Built and maintained an internal Vue.js component library used daily by 12+ developers
 - Delivered new views and modernized existing ones by applying updated UI patterns, Pinia state management, and best practices—resulting in faster, more maintainable user experiences
 - Collaborated in cross-functional agile teams to deliver high-impact features and improvements
- Loop Sistemas
Jales, SP
APR 2024 - JUN 2024
FULL-STACK DEVELOPER
 - Development of desktop applications with WPF and MVVM architecture
 - Implementation of robust solutions integrated with SQL Server
 - Close collaboration with teams to ensure reliable deliveries
- Plug4Sales (Repediu)
Jales, SP
OCT 2023 - FEB 2024
DIGITAL MARKETING INTERN
 - Customer service and support, ensuring satisfaction and loyalty
 - Creation of high-quality visual assets with Adobe Photoshop, enhancing visual identity
 - Development of digital marketing strategies to increase engagement and conversions
 - Front End implementation with React and Vite, optimizing performance and usability of digital projects
- SistemasBr
Jales, SP
SEP 2023 - OCT 2023
SALES DEVELOPMENT REPRESENTATIVE (SDR)
 - Conducted active prospecting of potential clients.
 - Used CRM tools to manage the sales pipeline.
 - Developed communication and negotiation skills.

- CNPq
Remote
SEP 2022 - AUG 2023
RESEARCH INTERN (CNPQ SCHOLARSHIP)

Developed sensitivity analysis algorithms for research projects. Used Python for processing and analyzing experimental data. Enhanced skills in scientific programming and engineering.
